VOL. XXXVI No. 19

WAINWRIGHT, ALBERTA, WEDNESDAY, MARCH 10th, 1943

Price \$2.00 Per Year In Advance

Council Disposing of Several Town Properties

Renting for Garden Plots; Will Assist With
Pasteurization Project; Opening Up
of Gas Utility; Donate to Red Cross

Following is a record of the proceedings of the council of the Town of Wainwright at its regular meeting in the council chamber at 8:00 p.m. on Tuesday, the 2nd day of March, 1943.

The members of council present at this meeting were Mayor Middlemas and Councillors Robinson, Cork, Lissimore, Alderman and Tork.

The recorded proceedings of council at its Statutory Meeting of February 16th, 1943, and the adjournment of this meeting on February 16th, 1943, were read and, on motion by Councillor Cork, the written records of both meetings were adopted and confirmed as written.

Mr. E. E. Tork submitted written offer to purchase Lots 6, 8, and 9 on Block 40, Plan 945 Z, at a price of \$85, attaching his certified cheque for this amount to his application, and, on motion by Councillor Lissimore, his offer was tabled for further investigation.

Mrs. Bada M. Nordstrom submitted written offer to purchase Lots 29 and 30 in Block 2, Plan 6445 V, at and for the sum of \$50, attaching thereto her cheque for the price offered and, on motion by Councillor Lissimore, the offer of Mrs. Nordstrom was accepted and referred to the By-Law Committee for preparation of the necessary by-law.

Mrs. Sarah M. Welch renewed her application to purchase Lot 2 in Block 20, Plan 6445 V, attaching thereto her cheque for \$50, and Mr. F. N. Palmer made written offer to purchase the West half of this lot or the whole lot, attaching to his application two cheques, one for \$25 for the half lot and the other for \$50 for the whole lot, and, on motion by Councillor Robinson, these applications were laid over until the next regular meeting of council.

Mr. F. G. Walberg made written application for the use of Lots 7 and 9 in Block 36, Plan 6445 V, for gardening purposes in the gardening season of 1943, and Mr. Roy H. Goodkey made written application for the use of Lot 37 in Block 3, Plan 6445 V for the same purpose and period, each attaching \$1.00 to his application as rental, and on motion by Councillor Lissimore, authority was granted for the leasing of these lots to the applicants for the purpose and period mentioned under the usual terms.

Mr. E. Ecklund wrote council offering to purchase Lots 18 and 19 in Block 16, Plan 6445 V, with a view of establishing thereon a milk processing plant and asking council's support in the passing of a by-law to afford him protection in prosecuting his intended business and, on motion by Councillor Lissimore, it was resolved that an offer be made to Mr. Ecklund to sell him Lots 27, 28 and 29 in Block 7, Plan 6445 V, for \$100 as a site for the erection of his pasteurizing plant.

The Wainwright and District Board of Trade wrote council in connection with the reopening of the dining room of the Wainwright Hotel, promising the support of their executive

Purchasers of Liquor Must Prove Identity

In a further effort aimed at a fairer and more equitable distribution of available stocks of liquor, beer and wine, and prevent as far as possible, illegal practices, new regulations governing purchases through permit at the government vendor stores of Alberta became effective March 1.

J. A. King, chairman of the Alberta Liquor Control Board, issued a statement Friday, enumerating the new regulations and reasons for their adoption.

All applicants for permits will be required to prove identity. So far as Canadian citizens go that proof of identity will be the Dominion registration certificate.

in any course taken by the town to have this service resumed, and, on motion by Councillor Lissimore, the secretary-treasurer was instructed to write the Liquor Control Board to the effect that council is of the opinion that the dining room of the Wainwright Hotel should be again opened for business.

Mr. W. S. Campbell wrote Mayor Middlemas, attaching to his communication a copy of a letter written by him to the Chairman of the Public Utility Commission, which communication was submitted to council and, on motion by Councillor Cork, the secretary-treasurer was instructed to request from Mr. Campbell copies of letters referred to by him in his letter to the Chairman of the Public Utility Commission and to file Mr. Campbell's letter for future reference.

Mrs. Harriet M. Washburn, Secretary of the Local Red Cross Society, wrote asking the support of council in the drive now being prosecuted on behalf of funds for the work of the society and, on motion by Councillor Cork, it was resolved that a grant of \$10 be made to this society.

The Fire Commissioner for the Province of Alberta wrote further relative to fire hazards and, on motion by Councillor Cork, his letter was ordered filed after the information contained therein had been communicated to the Town Constable and Fire Chief.

The Wainwright Municipal Hospital District submitted its requisition on the Town of Wainwright for the year 1943 in a total of \$2,435.70 and, on motion by Councillor Alderman, the requisition of the Wainwright Municipal Hospital District was received and authority granted for the first quarterly payment to be made at April 1st, 1943.

Splendid Entertainment For Red Cross Funds

On March 6th, in the Separate School Auditorium, the comedy play "Aunt Tillie Goes To Town" was received with acclaim by a packed hall. Certainly great praise goes to Miss McRoberts and her stage cast for such an excellent production. Under the chairmanship of Rev. Brallant, who introduced the entertainers to the audience. During the evening a splendid address of personal experiences and a detailed account of what a "blitz" means over in the old country, to the unfortunate people who have to endure the agony, terror and personal loss of home and immediate relations was given by Mrs. Brallant, who quite recently arrived in this country from London, England. Mrs. Brallant's talk indeed brought the meaning of an "all out war" closer to us out here who have so far lived in absolute comfort, far removed from the suffering and want that is the daily lot of peoples in other countries.

Two very fine solos were rendered by Mrs. A. Gray, accompanied on the piano by Mrs. W. S. Clark, were also enjoyed, the pianist also officiating at both opening and closing.

The Chairman, Rev. L. Brallant, gave an inspired address, pointing out the work that the Red Cross does to help human suffering. His address was indeed a clarion call to us in this immediate district to give and do our very utmost to make this work possible, and of course the help that we can give is donations of money. Assuredly no amount can be too little, or too much to help this worthy cause.

In closing this write-up, I take the liberty of assuring Miss McRoberts and the entire cast of the play, that we will be waiting somewhat with impatience, for another evening's entertainment of the same very fine calibre coming to Wainwright from Heath.

School Bd. Attend to Preventive Inoculation

The trustees of the Wainwright School District met in regular monthly meeting on Monday last, March 1. The reports of principals Meade and Finlay were accepted by the board, along with that of the attendance officer. A special report on religious instruction was presented by Mr. Meade. Rev. A. D. Richard also attended and gave a report on this matter.

Salaries and accounts in the

WRITES FOR RADIO

Elsie Park Gowan, whose radio adaptation of "North After Seals" will be heard on Thursday, March 11, over CBC's National Network. This is the third Canadian contribution Mrs. Gowan has written for the CBC School of the Air series, "Tales from Far and Near". Originally from the banks of Loch Lomond Mrs. Gowan settled at an early age in Alberta, and won Carnegie competitions in play writing.

Mrs. Gowan has completed a series of radio plays to be broadcast under the general title of "The Call to Health and Happiness". The series will commence on Wednesday, May 5 and will be broadcast over the Western network of the CBC at 4:15 p.m. MDT.

mount of \$1,707.33 were examined and passed for payment.

A letter from the Department of Public Health regarding vaccination and inoculation against smallpox and diphtheria respectively, was given careful attention and action in compliance with the suggested preventive measures decided upon.

A committee of three were named to meet representatives of the Alberta Teachers' Association in connection with the demands of the teachers for a cost-of-living bonus.

A request from Mr. J. F. Watkin, school inspector, for the use of the high school for supplemental examinations to be held in August was received and the necessary authority given.

Slam-Bang Driving Cuts Life of Cars

Warning against the effects of "slam-bang" driving has been given to motorists by officials of the Alberta Motor Association.

"When tire and fuel are so important in wartime, car owners must do everything they can to extend the life of equipment and get as much mileage as possible," said an A.M.A. official.

Making the tires squeak on turns, jamming on the breaks whenever a stop is made, may all be very thrilling. But it's very expensive, because such driving scuffs and burns the rubber off the tires and puts an undue strain on the fabric.

Drivers can make the tires last a lot longer by being careful not to scrape against curbs when parking.

Speed and heat are enemies of tire life. Tests show that tire treads wear about twice as fast when driven at 60 instead of 35 miles per hour. Of course the legal speed limit on highways now is 40 miles per hour for motor cars.

The Canadian Red Cross is Ready!

Don't Let this Happen To Your Newspaper

This week sees still another good weekly paper put out of business by lack of support from the town advertisers and the hard matter of procuring suitable help.

Local advertising is the foundation of any good weekly newspaper, and as The Jasper Signal said last week, it "has been forced to shut down owing to these causes — for the duration of the war at least," after a life of some fifteen years in that town!

It is more than ever necessary in these times that Wainwright merchants keep their goodwill at its highest point, and the finest way to do so is to Advertise in The Star.

TENDERS WANTED For AIRPORT

From information to hand we learn that work will be commencing right away on the air-port at Wainwright and an advertisement in this connection will be found on page two of this issue.

High School Students Union Holds Election

The mid-term Students' Union elections were held February 12th, 1943. The officers of the new executive are:—Bea Snyder, President; Carl Nyberg, Vice-President; Dorothy Morris, Secretary-treasurer; Jean Cardell, Press Correspondent.

Class Representatives are:—Grade 1X, Dinny Ganderon and Beth Davignon; Grade X, Wallace Snyder and Jackie Billings; Grade XI, Gordon Torrance and Muriel Baxter.

The Students' Union is making an Honour Roll to contain pictures of former W.H.S. students who are now in the armed services, and will be grateful if friends and families of these boys will co-operate by giving snapshots to any representative of the Students' Union.

Canada Will Pay Pension Awards

OTTAWA—Indication that the Canadian government proposes to pay the pensions and other awards which accrue to holders of the Victoria Cross and Distinguished Conduct Medal was given in the non-war estimates for 1943-44.

A new item of \$20,000 is provided for this purpose. Up to now these payments have been made by the British government and distributed in Canada to Canadian holders of the decorations by the British ministry of pensions.

Total estimates of the pensions and health department show an increase of \$123,311 over last year, amounting to \$55,201,460 for 1943-44, but there are wide variations on individual items.

A new item of \$400,000 is included to provide itemized allowances to non-pensioned widows of men who served in the First Great War and who are in necessitous circumstances.

Farm Estimates Down For Coming Year

OTTAWA—The agriculture estimates tabled by Finance Minister Dingley for the coming fiscal year totalled \$17,407,326, a decrease of \$24,243,690 compared with last year, but supplementary estimates probably will wipe out much of this decrease.

The estimate for wheat acreage reduction payments is \$4,265,000, \$2,910,000 less than in the present year. Legislation is passed each session to authorize these payments and until the present session passes the legislation, no estimate can be passed to cover next summer's payments. The only payments covered in the present estimate are left over from last summer.

Payments for next summer will be provided for in supplementary estimates later in the session.

Gets Twelve Months For Town Break-in

In disposing of the case of Joe Charbo, who was brought back from Biggar for trial for breaking into the Alma Food Market recently, Magistrate Genderton sent this prisoner to Fort Saskatchewan jail for 12 months hard labor after his trial last week.

It was shown that the prisoner had, somewhat of a record of misdeeds, and that in this instance the police had done a smart job of tracing him and proving the offence.

Morley Callaghan

Toronto author of several novels and well known to readers of quality magazines, takes the role of interlocutor in the new CBC discussion series "Of Things to Come". The broadcasts are heard on Sundays at 5:03 p.m. MDT over stations of the Western network.

Gov't Share Insurance Fund 3 Million Higher

OTTAWA—An estimated increase of \$3,000,000 in the government contribution to the unemployment insurance fund is provided for in labor department estimates. Total estimates for the department in 1943-44 are \$21,930,695, an increase of \$3,036,315 compared with 1942-43 estimates.

Growth of Service Seen in Estimates

OTTAWA—Growth of Canada's diplomatic service is reflected in the estimates for the Department of External Affairs for the coming year.

The cost of representation abroad is placed at \$988,990, up \$211,025 from last year.

The expenses of such newly-created missions as those to Russia, China and the governments of occupied countries which are functioning from London help to account for the increase.

All Cars Must Show Windshield Stickers

When the new federal gasoline rationing regulations take effect on April 1, it will be necessary for every car and truck to bear a windshield sticker indicating its category, according to information received by the Alberta Motor Association.

Special stickers will be provided for A.R.P. workers and drivers under the wartime industry transit plan.

Drivers who have both the basic "AA" category and also have been granted a "Special" category must display both "AA" and "Special" stickers on their windshields.

After April 1, service station operators are prohibited from selling gasoline without first comparing the ration book with the car license number and the sticker on the windshield.

The provincial secretary's department has announced that new 1943 license plates will be available around March 1. This will facilitate the obtaining of ration books prior to the opening of the new ration period on April 1.

Board of Trade Working on Important Town Matters

The regular monthly meeting of the Wainwright and District Board of Trade met in the Council Chamber of the Town on Wednesday last, Mr. L. W. Smith, (pres.) presiding.

Mr. Koch, Chairman of the Membership Committee, reported forty-

three paid-up members at this date.

Messrs. Smith and Wilbraham being a Committee appointed at the regular meeting of February 10th, 1943 to interview Mr. H. C. Link with reference to Dining Room facilities at the Wainwright Hotel, reported on this matter and the meeting approved the report.

The Chair reported with reference to the Processing Milk Plant now under consideration, and suggestions were made re wiring the War Time Prices and Trade Board and the Minister of Trade and Commerce at Ottawa in this important matter.

It was resolved that the Executive phone Mr. Ecklund and, if necessary, also communicate with Mr. W. S. Campbell as to the status of Mr. Ecklund's permit and that this whole matter be left in the hands of the Executive.

Mr. Schitt reported regarding the questionnaire to farmers regarding the quantity of milk that they could supply. He stated that he was well satisfied with the amount of milk that could be obtained within a seven mile radius.

Mr. Huntingford spoke on a possible site for the Plant, suggesting the lot where the former Park Hotel was situated, same having a deep well and sewerage, also that be believed that same could be purchased from the Council of the Town of Wainwright at a nominal fee.

The matter of milk distribution and milk bottle shortage at the present time was discussed.

Moved by Messrs. Huntingford and MacKenzie that the Executive be instructed to take up with the Town Council the matter of improvements for the town in the matter of graveling the main streets and construction of sidewalks.—Carried.

The meeting was regularly adjourned.

Number Means More than Name

"Serial number of the ration book is more important than the name," states Eric J. Hargreaves, western director of rationing, in warning Canadians to check their new ration books with the old to see that the letters and serial numbers are exactly the same.

"This serial number is the only number which will be allotted to you for the duration and it is absolutely necessary for every citizen to keep a record of his serial number in case of a lost book. No book can be replaced unless the serial number is known," states Mr. Hargreaves.

Waste Fat and Bones Are Needed

The lives of the United Nations' soldiers, airmen and sailors mostly depend upon the speedy response to this S.O.S.

Fats and Oils are the raw materials from which glycerine is produced. Glycerine is the basic and indispensable ingredient in the majority of our explosives.

If everyone in Canada saves two ounces of waste cooking fat in a week, it will produce the Glycerine required for the gun powder to smash Adolf, Benito and Tojo. There is enough explosive hidden in ten pounds of waste fat to fire forty-nine anti-aircraft shells.

This is a challenge to every Canadian Housewife, restaurant and hotel owner for it is their job to see that this Fat is saved out of Canada's frying pans and broilers, from the dripping of steaks and chops, beef and pork and lamb roasts, chicken and turkey, ducks and geese—must come fat for Glycerine so urgently needed to make explosives for shells and bombs and depth charges to win the war—and that adds up to deadly proportions for Hitler & Co.

Appropriation Doubled For Housing Relief

OTTAWA—Appropriation under the National Housing Act to relieve housing shortages in congested areas is doubled in the estimates for the coming fiscal year.

The estimates allocate \$2,000,000 for advances under the act in 1943-44 compared with \$1,000,000 in 1942-43. Total estimated expenditure by the government in loans and investments is placed at \$2,131,700 for 1943-44, an increase of \$483,370 against the previous year.

WAINWRIGHT, WEDNESDAY, MARCH 10th, 1943

KEEPING THE PARCELS GOING

The Canadian Red Cross Society urgently needs \$10,000,000. About half this amount is for food parcels to be sent to Canadian and British prisoners of war in the hands of the enemy in Europe and the Far East. This is an absolutely essential service, for as the pressure of the United Nations increases, our men in captivity will become more and more dependent for their food on Red Cross parcels. We must make certain by the generosity of our contributions that this supply is kept going through the splendidly organized channels of the International Red Cross.

We must remember also that many of the comforts for the men in our armed forces are supplied by the Red Cross, and the provision of hospital supplies is a constant drain on resources.

Another important item in the Red Cross bill is the Blood Donor Service, which has meant the saving of so many lives and the alleviation of so much pain.

All these things cost money, and the longer the war lasts, the greater is the human suffering it brings in its train. The Canadian Red Cross is dedicated to the relief of that suffering, and it is the privilege and responsibility of the Canadian people to see that this work is neither interrupted nor retarded through shortage of funds.

Under the terms of the International Red Cross Convention at Geneva, Switzerland, and agreed to by almost every country in the world, all monies for international relief must be raised by voluntary subscription from the public. Government subsidization would constitute a violation of this agreement and would result in forfeiture of international privileges.

The same procedure followed for overseas hospitals is used here in Canada. The Canadian Red Cross spares no effort to make sure that no Canadian serviceman confined to hospital suffers from loneliness.

Civilians in many parts of the world are benefitting from Canadian Red Cross services. British civilians in enemy internment camps receive food parcels weekly just as British prisoners of war do; victims of bombing raids in Britain receive clothes, bedding and medical supplies from the Canadian Red Cross; transfusions

of Canadian Red Cross blood serum have been given to civilians, not only in Britain but in Russia and Malta; a million pounds of jam and honey from Canada has been distributed to British children; layettes and baby clothing is given to expectant and nursing mothers in Britain.

In the event of an attempted invasion of Canada, Canadian Red Cross disaster relief organizations, supported by strong provincial committees, have been set up on the Atlantic and Pacific seaboard, as well as at other vulnerable points inland, and are ready to go into instant action in the event of air raids or other war emergencies.

Remember these things when the canvasser calls on you for your share of the present Red Cross drive (Mar. 1-20) and pull your weight!

The Executive wish to thank all those who assisted in any way in the success of the recent play, and for the loan of furniture and properties. The door receipts of the effort amount to \$49.10.

Also, again, thank you to the merchants and the Editor for the valuable store advertising donated for the big drive for funds, which to date amount to \$457.27, and a fuller report of this will be given next week.

In this respect, Miss Reta Jerram will canvass the Park Road and Ascot districts, while Miss Elsie Haywood, Miss Lola Richardson, and David Rattray will canvass the Green shelds, Bligo, and Gerald districts respectively.

If there should be no canvasser in your district, or if you are misad, leave your donation when in town at either the Municipal office, the post office, or with Mr. Graham or at Hannah's Hardware. Thank you.

—C.H.

CANADIAN RED CROSS

GIVE—human suffering is greater than ever

Q.—How much does a parcel cost?

A.—The Canadian Red Cross estimates that it costs approximately \$2.50 to "lay down" each weekly food parcel in Geneva, Switzerland. This is becoming the greatest item of Red Cross expenditure, and the bill would be greater if the Red Cross had to pay for the packing of these parcels but fortunately, they are all packed by women voluntary workers.

Q.—Does not the Red Cross send cigarettes or tobacco in its parcels?

A.—No. It would delay the shipment if these articles were included. Bulk shipments of tobacco and cigarettes are made to the camps by the British Red Cross at the rate of 50 cigarettes or 2 oz. of tobacco per week to each prisoner. Tobacco and cigarettes may also be ordered from licensed firms of tobacco dealers and sent direct by mail by any individual or organization in Canada.

Q.—How do the Red Cross parcels get to the individual prisoners? Is each parcel addressed to a prisoner?

A.—No. These food parcels are not personally addressed. They are all uniform in size and contents so that it is only necessary to see that there are enough parcels sent to each camp for each British prisoner to get one. At Geneva parcels are put on trains or trucks with an International Red Cross representative in charge, and on arrival at the prison camp, they are given over to the British prisoner chosen as "Spokesman" by his fellow prisoners. He gives a receipt to the Red Cross Committee for all parcels received and is responsible for seeing that each British prisoner, regardless of rank, gets a parcel each week—unless difficulties of transportation make this impossible.

SEA CADET ORDERS

Orders for month of March, 1943. R.C.S.C. "Exeter" will parade at 10:30 hours on Friday, March 12th, 10th and 26th at the Federal Buildings.

Officer of the Watch, Chief Instructor Ordway.

Petty Officer of the Watch, Chief Petty Officer MacKenzie.

Quarter Master W. Carrell, Sentries, Cadets Stafford and Rutherford.

Training as per Manual: Signallers must memorize instructions on page forty to forty-five inclusive in Manual of Seamanship, Volume 1. Also learn colors of flags facing page fifty-eight. All other Cadets memorize rules of the Road on plates 1, 2, 3, 4 5 facing page 206 of the Manual.

Discharges for February, Cadet D. Ganderton No. 17.

M. MEADE, Lieut., Commanding Officer.

R.C.S.C. "Exeter", Wainwright Sea Cadet Corps.

Help Win the War—Buy War Savings Certificates

TENDERS

SEALED TENDERS, addressed to the undersigned and marked "Tender for Development of Wainwright Aero-drome", will be received up to 12 o'clock noon, Eastern Daylight Saving Time, Tuesday, March 23, 1943, for development of Wainwright Aero-drome, Wainwright, Alberta, consisting mainly of clearing, stumping and grading.

Plans, specifications, labour conditions and form of contract to be entered into may be seen and tender forms obtained on application to the Acting General Purchasing Agent, Department of Transport, Hunter Building, Ottawa, Ontario, or from the District Airway Engineer, Post Office Building, Lethbridge, Alberta. Additional information, if required, relating to interpretation of plans and specifications, may be obtained from the said District Airway Engineer.

Plans, specifications, labour conditions, form of contract and tender form may be obtained from either of the above officials upon receipt of an accepted cheque, made payable to the Receiver General of Canada, for the sum of \$10.00. This cheque will be returned upon the return of the plans and specifications in good condition. Each tender must be accompanied by a certified cheque on a chartered Canadian bank equal to ten per cent (10%) of the tender price, payable to the order of the Receiver General of Canada, which cheque will be forfeited in the event of the tenderer refusing to enter into a contract on the basis of his tender, if called upon to do so, or failing to satisfactorily complete such a contract. Cheques of unsuccessful tenderers will be returned.

Any tender not accompanied by a security deposit as described will not be considered. The Department does not bind itself to accept the lowest or any tender.

A. H. McKEE, Acting Secretary, Department of Transport, Ottawa, March 3, 1943.

WHITE CLOUD

The neighborhood youngsters enjoyed Sunday afternoon skating on a large slough in Mr. LaVern's field.

A few more school children in the district have chicken pox, so the card party and dance are off for the time being.

There has been a few near fire blazes in the district due to hot pipes or full pipes.

Mr. W. Gaines, who has been rather handicapped since the bitter cold, owing to a badly frozen hand, had a thumb nail removed. We hope that will help.

GERALD

An interesting meeting of the Gerald Listening Club was held at the home of Mrs. R. Campbell on Monday evening. A number of visitors attended the meeting, and Mr. Koch of Wainwright gave a brief talk about Credit Unions, and answered questions on this subject.

Plans were made for further study of the subject, while Jack Perkins and Henry Ruste were given the task of getting more people interested.

The Mission Band met at the school on Thursday afternoon.

Mr. L. Thorson has returned here after a stay in Edmonton.

Sheepskin Flats

Jimmie Rasmussen and John Roberts both spent last week in bed with the "flu."

Quite a few from the district attended the wedding dance at Green-shields of Mr. and Mrs. Jimmie Strahan, and all had a good time.

Mrs. Mac Templeton spent a couple of days with her son Vern.

Mr. E. Rasmussen and Mr. J. Houaki have been busy all week getting up wood for the school.

HEATH

Mr. and Mrs. Smith are staying in Edmonton where Mr. Smith is employed.

The Young People's Club went to Wainwright on Friday night to present their play in aid of the Red Cross. They were very pleased with the receipts of the evening.

Mrs. McLeod was a tripper to Edmonton over the week end.

Tommy Jones was home from Calgary on leave last week.

Fred Ford is ill with the "flu" these days.

Miss McRoberts spent the week end as the guest of Mrs. Hannah in Wainwright.

SYDENHAM

On Tuesday evening forty friends and neighbors held a farewell surprise party at the home of H. Dowling. Mr. F. Dixon, in presenting the gifts, expressed the regret of the community in losing a good citizen and friend, Mr. Dowling having lived in the country for around thirty years. A pen and pencil set was presented to Mr. Dowling, while Mrs. Williams, his housekeeper for the past few years, received a suitcase.

Master Rae Williams, who celebrated his birthday on that day, was given a knife. The recipients expressed their thanks and hoped that the new neighbors would be as happy here as they had been. The Sydenham district wishes them all the best of everything wherever they may be.

The Sydenham Sunday School held a very pleasant gathering at the school on Thursday afternoon to wish Mrs. Williams, Miss Edith Guthrie and Rae Williams the best of luck in their new homes. Each was given a small remembrance from their S.S. classmates. These folks have been good workers in our Sunday School and we are sorry to see them go away. A nice lunch was enjoyed by 29 children and 7 ladies.

The card party and dance held at Sydenham Friday was a success. The winners for cards were: Ladies first, Mrs. Williams; Consolation, Mrs. Jack Veitch; Men's first, Mr. Gould; Consolation, Billy Veitch. Door receipts were \$10.35, with expenses of \$2.90. Prizes for whist and material for lunch were donated, and we wish to thank everyone. Proceeds are for the "Milk for Britain" fund.

We are glad to see Miss S. Merriek is able to be home again. The district wishes her a speedy recovery.

CONTINUATION OF TOWN COUNCIL

(Continued from page 1)

Dr. H. C. Wallace, Medical Officer of Health, submitted a letter received from the Provincial Health Engineer dealing with the nuisance complained of by Mrs. Leggett, and the milk problem of the Town of Wainwright, and on motion by Councillor Alderman, it was resolved that the matter of the nuisance be left in abeyance pending further information from the Medical Officer of Health, and the matter of milk supply be discussed under general business, when other matters connected therewith are discussed.

The Finance Committee submitted its report, recommending payment of accounts, in a total of \$2,592.47, as follows:

| | |
|------------------------------|----------|
| Registrar L.T.O. | \$ 2.00 |
| Registrar, L.T.O., abstract | 1.00 |
| Wain, Gas. Co. Ltd., account | 99.58 |
| Alta. Gov't. Phones, account | 18.79 |
| Wain, School District | 1,500.00 |
| Calgary Power Co. Ltd. | 171.25 |
| P. E. Patterson, salary | 100.00 |
| J. McDonald, salary | 110.00 |
| Fred Sheffield, scavenging | 135.00 |
| Joe Wright, rink & fire hall | 75.00 |
| N. S. Kenny, salary | 143.42 |
| Chas. Horn, Ret. Officer | 10.00 |
| Frank Ponton, Poll clerk | 4.00 |
| Earl L. Cork, light bulbs | 4.20 |
| John Patterson, account | 15.00 |
| O. R. Hannah, account | 1.55 |
| F. E. McLeod, rebate | 5.00 |
| Wainwright Star, account | 58.25 |
| Alta. Municipal Stationers | 6.08 |
| Patriquin & Johnstone Co. | 127.55 |
| Local Red Cross, grant | 10.00 |

On motion by Councillor Cork, the report of the Finance Committee was received and accepted and the Mayor and secretary-treasurer were authorized and instructed to issue cheques in payment of all accounts included in the report, in a total of \$2,592.47.

The Town Constable submitted his report for the month of February, 1943, and, on motion by Councillor Cork, his report was received and accepted and ordered filed.

A delegation from the Elks Lodge waited upon council, relative to the use of certain town lots as a play ground for children and, on motion by Councillor Lismore, this was left in the hands of the Property and Assessment Committee for disposal.

On motion by Councillor Lismore it was resolved that all parcels of land, within the corporate limits of the Town of Wainwright, against which Tax Recovery. Notifications were registered in the year 1942, and which are not previously redeemed, be offered for sale by public auction in the council chamber of the Town of Wainwright at 2 o'clock in the afternoon of Monday, the 26th day of July A.D. 1943, and that the secretary-treasurer be instructed to attend to all conditions precedent in preparation for the said sale in accordance with the Tax Recovery Act, 1938.

On motion by Councillor Tory, it was unanimously resolved that By-Law No. 304 be given its third reading at this meeting, that it be assigned its title as in the original motion, that it be finally passed and that the Mayor and Secretary-Treasurer be authorized and instructed to sign the said By-Law and to attach thereto the Corporate Seal of the Town of Wainwright.

By-Law No. 304 was then read the third time and was finally passed.

On motion by Councillor Tory, council granted its assent to the introduction of a by-law concerning the sale to Mr. Stephen R. Bowerman of the West twenty feet throughout of Lot 39 in Block 7, Plan 6445 V.

By-Law No. 305 was then introduced and given its first and second readings on motions by Councillors Lismore and Cork respectively.

On motion by Councillor Tory, council granted its assent to the introduction of a by-law to provide for the imposition of a minimum tax for school purposes.

By-Law No. 306 was then introduced and was given its first and second readings on motions by Councillors Lismore and Cork respectively.

The Financial Statement for the month of February, 1943, was then presented to council by the secretary-treasurer and, on motion by Councillor Cork, this financial statement, as presented, was received and accepted and incorporated in the proceedings of this meeting.

On motion, council was regularly adjourned.

WHY SHOULD THEY?

Provincial governments are asking the federal government what they are going to do about making up the loss in liquor profits occasioned by the curtailment of sales. They have about as much right to ask it as the newspapers have to ask the government to make up for the loss in revenue caused by the prohibition of all liquor advertising.—MacLeod Gazette.

R. C. A. F.

A Mobile Recruiting Unit of the Royal Canadian Air Force will visit the following points on the dates shown.

Monday — March 15

| | |
|---------|--------------------------|
| Tofield | 10:00 a.m. to 1:00 p.m. |
| Ryley | 2:00 p.m. to 3:00 p.m. |
| Holden | 4:00 p.m. to 6:00 p.m. |
| Bruce | 7:00 p.m. to 9:00 p.m. |
| Viking | 10:00 p.m. to 12:00 p.m. |

Tuesday — March 16

| | |
|------------|-------------------------|
| Viking | 9:00 a.m. to 3:00 p.m. |
| Kinsella | 4:00 p.m. to 5:00 p.m. |
| Irma | 6:00 p.m. to 8:00 p.m. |
| Wainwright | 9:00 p.m. to 12:00 p.m. |

Wednesday — March 17

| | |
|------------|-------------------------|
| Wainwright | 9:00 a.m. to 3:00 p.m. |
| Edgerton | 4:00 p.m. to 6:00 p.m. |
| Chauvin | 7:00 p.m. to 12:00 p.m. |

Thursday — March 18

| | |
|---------|------------------------|
| Chauvin | 9:00 a.m. to 2:00 p.m. |
|---------|------------------------|

Enquiries from men and women who are interested in joining the Air Force will be welcomed and full information will be given. A representative of the Women's Division will be with the unit.

Q.—Who are included under the name "BRITISH" prisoners of war?

A.—The term "BRITISH" prisoners of war includes: all captured personnel of Army, Navy or Air Force; civilian passengers (men and women) and crews of merchant ships sunk or captured at sea; and men, women and children civilian internees—who belong to the British Empire. It includes people from the Dominions, India and the Colonies. All Canadian prisoners and internees are therefore included under the term "BRITISH" prisoners of war.

Q.—Then why is the Canadian Red Cross sending parcels of food to British prisoners of war?

A.—Because the British Red Cross has asked the Canadian Red Cross to share this great responsibility by packing and despatching 100,000 parcels of food each week to British prisoners.

Q.—What goes into a Canadian Red Cross food parcel?

A.—Here is a list of contents, which are all (except the soap) selected for their food value in proper proportions by a committee of food and nutrition experts:—16 oz. milk powder, 16 oz. butter, 4 oz. cheese, 12 oz. corned beef, 10 oz. pork meat, 8 oz. salmon, 4 oz. sardines or kippers, 8 oz. raisins, 8 oz. prunes, 8 oz. sugar, 16 oz. jam, 8 oz. chocolate, 16 oz. biscuits, 1 oz. salt and pepper, 4 oz. tea, 2 oz. soap.

VANCOUVER

Because long, distant travel has been somewhat restricted, many people are planning to visit Vancouver this year. Hotel Grosvenor is very popular—its rooms are in demand, because they are quiet yet very central. And the rates are low—commencing at \$2.00. You are asked to make your reservations early. Don't be disappointed by taking a chance on trying to get a room when you arrive. You will like the Grosvenor—it's so cheerful and homelike—and it has no bar!

FARM NOTES

PREPARING FOR INCUBATION

With an increased domestic demand for eggs and poultry and the large increase in the requests of the British Ministry of Food, whose order has risen from 10,000,000 dozen eggs in 1940 to 45,000,000 in 1942, with further increases expected for 1943. The Canadian poultryman and farmer should plan for the coming year, says R. G. Newton, Dominion Experimental Station, Prince George, B.C.

The incubating season will soon be here and producers should already be getting the breeders into condition in order to obtain the maximum of high quality eggs. Poultrymen should not stint on high vitamin feeds for the breeders. In order to reduce the annual costs of replacement, good fertility, good hatchability and low pullet mortality are essential.

Care should be taken in selecting males to head the breeding flock and only males of approved and selected breeding should be used. The past year the production from the progeny of 10 different males were studied at the Dominion Experimental Station, Prince George and the average production of the daughters from the different males varied from 177 eggs per bird per year up to 232 eggs per bird per year, which means that each daughter of the top sire produced 4 7/12ths dozen eggs more each than did the daughters of the low sire.

This spread in production means the difference between profit and loss. High mortality in rearing and in the pullet flock stress the necessity for careful, sanitary and healthy environment as well as the mating of only healthy individuals. With the great demand for stock this coming season any tendency to use pullet eggs for incubation should be avoided. When purchasing day old chicks, it is well to deal only with reliable poultry breeders or approved hatcheries.

TREES FOR PRAIRIE

FARM PLANTING

It has long been realized that no farm home in the Prairie Provinces is considered completely equipped unless it is provided with strong and vigorous protective shelterbelts, says John Walker, Superintendent Forest Nursery Station, Indian Head, Sask. Specific benefits which result from well established shelterbelts are: a. Comfort enjoyed in summer and winter by farm residents; b. Improvement in appearance and added value of the farm; c. Reduction in wind velocity, snow blowing and soil drifting; d. Increase in song, game and insectivorous birds.

These are considerations which should be fully appreciated by all organizations and officials whose thinking, living and welfare are closely associated with those of farmers and farm landowners.

HOW TREES MAY BE OBTAINED

Important facts about the free distribution policy of the Government of Canada follow:

1. Broadleaf trees (caragana, ash, maple, elm, in almost unlimited number, and limited numbers of willow and poplar, are available for planting on bona fide farm property FREE of charge, express charges COLLECT.

2. For evergreen trees, White spruce, Colorado spruce, Scots pine, there is a charge of \$1.00 per 100, express charges COLLECT. For any one planter in any one year a minimum of 50 trees and a maximum of 500 evergreen trees will be supplied. Note—Broadleaf and evergreen trees are NOT supplied together.

3. Application forms for trees for farm planting are available from The Forest Nursery Station, Indian Head, Sask. When applications are accepted, planting plans are prepared and provided for the guidance of planters.

4. Trees will NOT be supplied unless planters have well summer-fallowed ground ready for them. Instructions on planting of trees and care on arrival accompany shipments.

5. The first consideration of farmers should be shelter for home, buildings, gardens and livestock. When this shelter is established wise planters should consider setting out, within the protective shelterbelt, fruit and ornamental plants and an extension of general planting, such as woodlot or field shelterbelt.

Write NOW to The Forest Nursery Station at Indian Head, Sask., about Farm Tree Planting!

production for this coming year.

Most certainly a surplus of wheat and so of bread, is far better in wartime than a deficiency.

ITEMS OF INTEREST IN

THE WORLD OF FOODSTUFFS
The Argentine harvest acreage for corn is estimated at only 50 percent of last year's acreage—Turkey imported during 1942 an estimated 12,000 tons of flour, 40,000 tons of barley, 60,000 tons of wheat and 5,000 tons of maize—The U.S.A. has announced a new ceiling price regulation on soybeans which sets a maximum price of \$1.55 a bushel on farmers' sales to country elevators.

U.S.A. farmers may now overplant their wheat allotments if they meet 90 percent of their war crop goals—Canada is planning to relieve farm labour shortage by using Italian war prisoners and Canadian born Japanese—Russian bread grain production will likely be greatly increased this year owing to the recovery of the Caucasus region.

Director, Agricultural Department
North-West Line Elevators Association
NEW LEAF-RUST RESISTANT WHEATS

Owing to publicity from the University of Minnesota regarding a new strain of wheat that is resistant to leaf rust, there has been a great demand for further information.

Actually, there are several strains, the best of which has yet to be selected. They have been developed by successive "back-crosses" of Thatcher x Hope hybrids to Thatcher. The aim was to transfer the leaf rust of Hope to Thatcher, and we have every reason to believe that the efforts of the Minnesota plant breeders have met with a large measure of success. They are about to begin increasing one of the new back-crossed strains.

The strain which will probably be increased, has not been tested in Canada, but two others of this group were in variety tests in Western Canada in 1942. They gave higher yields than Thatcher in districts where leaf rust was abundant; but, in the absence of this disease they yielded somewhat less than Thatcher. Under leaf rust conditions, they yielded no better than did Regent and some new selections from crosses between Regent and Thatcher bred at the Dominion Rust Research Laboratory, and now under test.

Seed of the new Minnesota strains will not be available for at least one, and probably two years. In areas subject to leaf rust damage, farmers should grow Regent, or Regent, and make sure they use seed derived from registered strains. Both Regent and Regent have been greatly improved by selection since first distributed. Every farmer growing these varieties would do well to get a start with registered stock—Contributed by Dr. C. H. Goulden, Senior Agricultural Scientist, Dominion Rust Research Laboratory.

THE WHEAT SURPLUS

So much has been written and said about the accumulated wheat surplus that many have the idea that the surplus is permanent, and that considerable reductions in acreage may have to take place when the war is over.

For myself I have always steadfastly opposed this idea, knowing well from my reading of history that the people of the world never have had all the bread they wanted to eat in any single year during the 6,000 years of recorded history.

I have also noticed that many surpluses, which from time to time have appeared in certain producing areas, always disappeared much sooner than people thought possible, and so the impression has come upon my mind that perhaps these surpluses are built up by some Great Building Power beyond our understanding, in order to offset possible years of poor crops or scarcity that may later come along.

This opinion is somewhat confirmed by recent news from Washington that the United States Government is becoming rather concerned about the disappearance of their own large wheat surplus, and it is expected that the United States may actually be obliged to invite their farmers to make some expansion in their wheat

LOOSE LEAF SYSTEM SERVICE

All Wainwright Business Firms should know that THE STAR PRINTERS are fully equipped to print, perforate, punch and supply a wide variety of Ledger Sheets, Duplicates, Carbons, Ledger Binders and Synoptic Forms.

Let us supply you with your next order of Loose Leaf Statements. We guarantee that we can give you first-class work at reasonable prices.

They're Working on the Railway, Too!

That old saw about all work and no play making Jack a dull boy does not hold in the case of Jack Benny. During their recent trip in Canada to entertain the men and women of the Canadian Army, Naval and Air Services, Jack Benny, Mary Livingston, his wife, and other members of the Benny organization, while travelling over the Canadian National Railways spent much of their time in improvising, building up and polishing script and material for the amusement of their Canadian Military audiences, and for their regular weekly programme which was broadcast from Toronto.

The top picture taken on the express between Montreal and Ottawa shows a script conference with a couple of army men as kibitzers. At the left is Dennis Day, whose songs are a feature on the Benny programme, then comes Jack Benny, himself, and seated beside him is Bob O'Brien, script writer. Standing are Captain Dick Diespecker, "Schlepperman" who in real life is Sam Hearn, and Lt. D. R. Baird, the army men being present to represent Jack Benny's Canadian hosts.

Below the cameraman found Mary Livingston at home in the dining car kitchen. She explored all the features of the compact kitchen and demonstrated to Chief Percy Alderman her idea of the proper way to carve the family roast.

Jack Benny, and his "gang," making their contribution towards the entertainment of the Canadian armed forces, "opened" at Montreal to an enthusiastic audience of 14,000, and gave shows at Ottawa and Camp Borden. They were booked for their travel in the Dominion by the New York office of the Canadian National Railways. The entire expense of bringing the organization to Canada was assumed by Mr. Benny as a tribute to Canada's armed forces. He and his company have also given special performances at many U.S. Camps.

LUNCH BOX VARIETY

Variety, we are told, is the spice of life. It also can add greatly to the enjoyment of the worker's mid-day meal. Imagination is a prerequisite for the lunch box planner, for nothing can perk up a jaded appetite like new ideas and innovations introduced into the daily lunch. For example, sandwiches are not, as some people think, a vital necessity in the lunch box. Indeed, they can be eliminated entirely from time to time and other items of food substituted with gratifying effect. Following are some lunch box menus which do not include sandwiches; yet are very appetizing just the same:

Cream of Pea Soup
Whole wheat bread and butter
Cabbage and Carrot Salad
Canned Plums
Milk

Fish and Celery Salad
(Pilchard can take the place of salmon and are economical)
Whole Wheat Bread and Butter
Coffee or Cocoa
Cake
Canned fruit or leftover pudding

Cream Soup
Devilled Egg and Lettuce
Salad with Carrot Strips
Whole Wheat Bread and Butter
Apple

Macaroni with Cheese
Fruit Cup
Bread and Butter
Milk

Cream of Tomato Soup
Beet and Celery Salad
Carrot Strips
Whole Wheat Muffins and Butter
Tea and Milk

Potato and Onion Soup
Cabbage and Raw Apple Salad
Bread and Butter
Cocoa

In order to make sure liquids and salads are packed securely, it will be necessary to have always on hand the proper equipment. This consists of:

1. Standard Lunch Box.
2. Thermos bottle for soups and beverages.

3. Glass Jar with screw top—for pickles and fruit. Clean jam or mayonnaise jars are ideal for this purpose.
4. Paper cups—for salads.
5. Wax paper—for salads and sandwiches.
6. Spoon and/or fork.

So us your imagination Mrs. Housewife, and make it a pleasure for the man of the family to open his lunch box when the noonday whistle blows. Write to the Health League of Canada, 111 Avenue Road, Toronto, Ont., for your free copy of our authoritative Vitamin Chart.

A recent news item in the London Times Weekly states that prior to the war Great Britain brought in with her food imports no less than 3,000,000 tons of water a year. Now a number of imported food commodities, says the Times, come in dried form, thus saving an immense amount in shipping space.

For example, a quart of milk when fresh weighs some 41 ounces, and has a volume of 69 cubic inches. As a powder, it weighs 5.3 ounces, with a volume of only 15.6 cubic inches. If the powder is compressed into a block the volume is further reduced to 7.7 cubic inches. This discovery, says the item, makes it possible for rich spring and early summer milk to be preserved for winter use.

It is estimated that during 1943 Great Britain will import 100,000 tons of dried egg. The equivalent importation as egg in shell would be more than five or six times as much in bulk. Already, says the Times, samples of dried meat have reached Great Britain from New Zealand, Australia, Argentina and the United States. This is literally meat minus moisture. Not only are dried meat and egg economical of shipping space but they do not require refrigeration for transport or storing.

The item goes on to say that scientists both in Great Britain and the Dominions have co-operated to produce a method of shipping and storing butter without refrigeration. By removing the water and non-fat solids, a pure, dry butterfat is obtainable which is relatively non-perishable, cannot be spoiled by micro-organisms, and will keep for months without refrigeration.

 SWIFT CURRENT, SASKATCHEWAN

OILS AND FATS— CONSUMERS BRANCH

It wasn't Mrs. Phyllis Turner's good looks that made me deal with Oils and Fats in the second article, but its tremendous importance emphasized by the fact that despite Goebbels' propaganda of synthetic procurement in Germany, she declares that is mostly bunk. The supply both here and there must depend on agriculture, whaling and fishing. Germany's economic fat plan was the original basis for their universal system of a state-controlled agriculture, industry and commerce. Recovery of waste and garbage fats in the household is there in the house-holds there is mandatory. Think that over, housewives of Canada when they "appeal" to you to avoid unnecessary usage and waste of oils and fats.

The picture is so simple, folks. Fats and vegetable oils are our only source of glycerine for explosives, medicines, lotions, etc.—cigarettes, when available. The average yield from fats is 10 to 12%. "Do you know," Mrs. Turner flung at me in trip-hammer succession, "that one ounce of dripping per person per week would give us 36 million pounds a year? That 10 lbs. of rendered fats fires 49 anti-aircraft shells? That 100 lbs. of glycerine helps make 180 tank mines, or 780 lbs. of high explosive or enough to mine 780 tons of ore?" I had to admit ignorance. You who have sons depending on this (which depends on you)—are you interested?

Oils and Troubled Waters
 Just imagine the ramifications of this administration, especially since Japan plugged holes in the Pacific; conserving, inducing and co-ordinating our vital vegetable, animal and fish oils for food and industrial purposes, i.e.: vitamin oils, lard, shortening, paints, inks, shellac, waxes, starches, glues, soaps, naval stores (resins, turps, pine oils). As for nutrition, how could you all exist without a proper proportion of oils and fats in your diet? Mom, isn't it just plain realism?

Doesn't it make you think—as it did me—to hear that we depend so much on it, in our ahaving; butter which is 80% fat, our toast in its

shortening, our clothes and shoes which gets treatment from oils or derivatives; the chair you sit in, the linoleum you walk on. Excluding butter we normally consume 450 million lbs. of fats yearly in Canada, 200 of which, or 45%, had to be imported, originating largely in the Far East. That source went out with Pearl Harbor; your boy guarding convoys, knows that even India and West Africa is getting tougher to reach.

Heavy demands for the stout-hearted but hungry Russians in Britain, for ourselves must be met on this continent, in only one way: increased hemisphere production, saving in consumption. Mrs. Turner sits on the United Nations Council of United States, United Kingdom, Canada, New Zealand, South Africa and Australia which meets in Washington and even Canada's production is pooled; out of which we get only edible and inedible requirements on a strictly controlled basis.

I know you're interested in how they intend meeting this situation. We get linseed oil from flax; well, flaxseed production, it is hoped, will be stepped up to at least 20 million bushels this year compared to 8½ in 1941; there will be an expansion of soy bean crops, sunflower and rapeseed.

Why Billions Are Needed
 "Why control fats when the U.S.A. increased its production two billion pounds last year?" I asked Mrs. Turner to show that I read Time and Ottawa papers. With that restful and patient smile she asked me, "Did you know that the U.S.A. consumed 11 billion lbs. last year; that a billion was cut off from the Far East, and furthermore what assurance have any of us that this year's crops will give as high yields as last?" Could you answer that smartly, even if you are a stove lugger?

Sure, you've got a baby around the house. Prior to the war 75% of cod liver oil was imported, mostly from Britain, Norway and Newfoundland. The fishing companies on our Atlantic coast wasted much of the precious vitamin content for tanning etc., feeding livestock and poultry. Do you know that since 1941 we now have five plants of our own producing refined medicinal cod liver oil and that we will be in a position to supply our own needs, the U.S.A., South America, Australia and China? That industry is a war baby and, believe me, a pipkin. Vitamin feeding oils for veterinary purposes will now

be processed from the lowliest of British Columbia flax; and the deplorable dogfish from out there now produces Vitamin A oil, rich and fortifying to margarine and for night filters, and is already being shipped to the British Ministry of Food.

Agriculture Comes Into Picture
 Yes, I got enough of the story to know that a combination of science, management and invention has put us on the threshold of a period when Canadian agriculture production will take its rightful place in the Canadian industry. That's where you and I are interested.

Through efforts of this division, linseed oil is now being processed to replace drying oils hitherto obtained from China; soy beans will probably be used in "nylon" type artificial silk; wheat will be a source of starch and sodium glutamate, the latter previously exported from Japan and used for the meaty flavor in concentrated soups and beverages.

"Keep the fat out of the fire" was the administrator's appeal to women of Canada. It means oil for marine engines, brake fluid for tanks and trucks, the life of linoleum and glycerine, to mention a few.

Consumer Organization Functioning
 But I must hurry on to Byrne Sanders, head of Consumers Division, which is giving the Canadian consumer a voice and has 8,000 women across the country doing active voluntary service, co-operating in their own interest, and trying hard to make for a better understanding between the consumer and retailer.

"The women are doing a grand job," B. H. SANDERS, she said, and flashed a toothsome, sincere smile which said, "I mean it." "Our task is to channel their difficulties and complaints towards a head and then we can go at the problem again." She admitted women are prone to criticize. (Boy, she ought to hear the men in a smoking compartment.)

Her division is trying so hard to get closer to women everywhere, because their whole job so closely affects the household. B. H. Sanders is practical because she said, "The war hasn't started to hurt us yet. It likely will." Price checking is one of the big jobs of the division, but she feels in this that honest retailers deserve protection from those who might not be. She wants women to co-operate with her. These liaison officers in all towns are the link to do it.

"The Consumers' Board is set up to represent all you people," and here we quote her exact expression which reflects the energy and determination of this woman, "So, for Pete's sake use it. If anything is wrong send it to your nearest committee."

I went out past a battery of female-operated typewriters in high gear. I thought if Mom can run the household on Dad's budget, a woman can run the Consumers' division might effectively with the help of other women across Canada.

Household Hints

VITAMIN-FILLED ORANGES STILL PLENTIFUL

As we nonchalantly sip our glass of orange juice or scoop the pulp from our breakfast orange, few of us realize how blessed we are.

Beverly Smith, writing for the American Magazine has this to say about the reaction of the Irish to the orange juice which we take as a matter of course: "The local people were impressed by the beautiful American scientific equipment, but what knocked them for a loop was a scene in back of the hospital kitchen, where an American Army cook, a former soda jerker from Dallas, Texas, had hitched up an electric orange squeezer to the hospital generator. Working expertly with both hands from a crate full of American oranges, he was sending a gushing stream of fresh orange juice into buckets for hospital patients."

"The local citizens abandoned other work and watched in awe. Every now and then the cook would seize an empty orange hull, fill it with fresh juice, and hand it to an eager child."

People in America hardly realize how many of their ordinary comforts of life are miracles to the people in war torn Europe.

We need vitamins. We must have Vitamin C daily. Fortunately our home-grown oranges are here to supply it in a natural form. If you feel like varying your vitamin-beverage, why not try the recipes below:

Orange Cooler

Juice and pulp of 1 lemon
 2 tablespoons sugar
 ¼ to ½ teaspoon gelatin
 ¼ cup orange juice
 ½ cup iced water
 In a glass mix the lemon juice and pulp with the sugar and gelatin. Fill the glass with ice, orange juice and water. This amount will serve 1.

Tropical Tea

28 fresh mint sprigs
 ¼ cup sugar
 4 cups strong tea
 1½ cups orange juice
 ½ cup lemon juice
 Crushed ice
 On eight fresh mint sprigs sprinkle the sugar and put in a warm place. After this has stood for 30 minutes, add the tea and fruit juices. Strain and pour into glasses half filled with crushed ice. Garnish with rest of mint.

QUICK-FROZEN VEGETABLE DINNER IN TWENTY MINUTES

When you plan meatless menus in answer to the Government's S.O.S. for reduced meat consumption, you'll be sure of giving the family its full quota of nourishment and vitamins if you serve a vegetable plate costarred with eggs or cheese.

Even if you're kept late at Red Cross or a defense job you can be sure of an all-star vegetable ensemble if you build your menus around quick-frozen foods. You can hang up your hat and don your apron at six o'clock and have a luscious quick-frozen vegetable dinner ready to serve in twenty minutes. They come to you all ready to cook. All the chores of cleaning, sorting and trimming were done before quick-freezing sealed in their full quota of vitamins and minerals as well as garden-fresh flavor. And, as a special boon to hurry-up cooks, the quick-frozen vegetables cook in half the time usually required.

Remember that color contrast and neat arrangement help to make a vegetable plate appetizing. Lima beans, Creole style, spinach, and carrots and peas make a quick-frozen with both eye and taste appeal.

Creole Lima Beans

1 box (12 oz.) quick-frozen lima beans
 2 cups boiling water, salted
 1/3 cup diced onion
 1/3 cup diced green pepper
 1/3 cup butter
 1½ cups canned tomatoes
 ¼ teaspoon salt
 Dash of pepper
 ¼ teaspoon sugar
 Drop frozen lima beans into briskly boiling salted water, bring again to a boil, and boil 15 to 18 minutes, or until just tender. Drain. Sauté onion and green pepper in butter until tender. Add lima beans, tomatoes, and seasonings, and simmer 3 to 5 minutes. Serves 4 to 6.

Spinach, Dutch Style

1 box (14 oz.) quick-frozen spinach
 1 cup boiling water, salted
 1 tablespoon butter, melted
 1 tablespoon flour
 2/3 cup light cream
 ½ teaspoon salt
 ¼ teaspoon scraped onion
 1½ teaspoons vinegar
 Drop frozen spinach into briskly boiling salted water. Bring again to a boil and boil 4 to 6 minutes, or until just tender, separating leaves with fork during cooking. Drain and chop. Combine butter and flour in saucepan and stir until smooth. Add cream gradually and cook until thickened, stirring constantly. Add spinach and remaining ingredients; heat and serve. Serves 4 to 6.

Canada's overseas strength is now increased by a new contingent of the Royal Canadian Air Force Women's Division, whose arrival in Britain has just been announced. Some of the girls will serve at Overseas Headquarters, some at the headquarters of the new R.C.A.F. bomber group, and others will take up duties at various R.C.A.F. stations. Just before they embarked for the Atlantic crossing a photographer visited the girls and found them busy packing duffel bags and getting acquainted with respirators, steel helmets and other overseas gear. Here are three Alberta airwomen in the contingent—LAW Josephine Waterhouse of Calgary, LAW Anne Starr of Edmonton, and LAW Margaret Watts of Carstairs.

Girls Replacing Part in T.C.A. Warplane Maintenance Shop Play Big

Trans-Canada Air Lines is unique among commercial transport operators on this Continent with respect to the employment of women. They are replacing men who have joined the Armed Forces. No other operator carries as great a proportion of women on its payroll as does the T.C.A.

Girls are now employed in the instrument, engine, accessories and propeller shops and say they prefer this mechanical work to clerical occupations. In addition, they are making a very direct contribution to the war effort since Trans-Canada Air Lines overhaul a great deal of R.C.A.F. equipment. The girls work a 48-hour week under the

same conditions as the men. Their employment is only for the duration of the war.

The pictures: Upper left—Miss Eva Grant is shown grinding a valve. Upper right—Miss Mary Goshlaka assembles the ignition harness which carries the high voltage to spark T.C.A.'s powerful aircraft engines. Lower right—Miss Mary Baverstock is putting the finishing touches to a course-setting bomb sight, the instrument being a part of the equipment which women help to overhaul at T.C.A. shops for the R.C.A.F.

NEW RAIL CAR FOR WAR CASUALTIES

To provide comfort in travel for casualties of all branches of the Canadian Active Services returned from the overseas war zones, officers of the Royal Canadian Army Medical Corps and engineers of the Canadian National Railways have developed a new model hospital car designed to accommodate twenty-eight bed cases. The all-steel car was converted in the Montreal shops of the National Railways and sent to Ottawa for inspection by Hon. J. L. Ralston, Minister of Defence, and officers of the RCAMC and the Quartermaster-General's department. Col. E. L. Stone, of Ottawa, embarkation medical officer, designed the interior layout in co-operation with Canadian National Railways car experts. At

the inspection, Col. Ralston highly praised the designers and the railwaymen for their fine work. Below is a floor plan of the car. The conventional berths have been replaced by spring beds slung in steel frames, upper and lower, with safety webbing for the protection of patients. The ward section is clear, spacious and airy and well-lighted. At one end is a room to be used as dispensary and diet kitchen, its equipment including a refrigerator. At the other end is a wash room. The car has wide side doors so that stretchers can be conveniently lifted in or out.

Left: Brig. Lett, recently returned from Overseas, tests the ward beds and pronounces them as being comfortable. Right: The interior of the car showing the "Ward". Standard railway bedding is used. Each bed has a small hammock for the patient's clothes with a holdall for his small possessions.

EDGERTON

We have experienced another cold week just to remind us that winter is still with us. Fortunately here is an adequate supply of coal in town.

Ralph Challenger returned from Saskatoon Monday and we regret to report his infant son died Saturday, March 1st.

The Rev. A. A. Court was a business visitor to the city.

Mrs. Gilmour returned from the city. George Sawyer was a business visitor to the city accompanied by Inila.

The Ladies held their bazaar on Monday March 2nd. Two visiting rinks, one from Chauvin and one from Wainwright, were here.

Two Wainwright rinks were here Friday playing for the Alberta Atlas Lumber Cup, which incidentally, they took home with them. Wainwright skips were H. P. Schlitt and C. McCaffrey.

Mrs. Alf Challenger returned from the city March 2nd.

The Board of Trade held their monthly meeting March 2nd. There was a good turn-out but nothing of great importance took place except perhaps that a representative from here was appointed as a member of the local rationing board. Mr. Tom Shaw was the appointee.

City visitors this week were Les Darby, Earl Hallett and Jeff Miles. Mrs. Norman Miles left for the city Friday. Mrs. McAvoy returned from a visit.

The Bishop of Edmonton was a visitor here Friday, having come especially to address a congregational meeting in St. Mary's church, to outline the new set-up of Anglican services necessitated by the joining up with the Active Forces of the Rev. S. G. West. The meeting was well attended. From now on there will be services in St. Mary's on the second and fourth Sundays in the month and when there are five Sundays in the month, on that day as well. The Rev. A. A. Court will continue to live here and work his missions at Rife, Glendon, Kitcoy and Ashmont from this point. His lordship expressed his satisfaction at the agreement to this plan given by the meeting and accepted as one of the inconveniences caused by the war.

The Red Cross Finance Committee met Saturday in connection with the National Campaign for Funds. It is hoped that there will be a very generous response and that this district will keep up the good reputation it has earned in the past by coming through with its full responsibilities.

The Victory Wheel draw at the Drug Store resulted in No. 11, Jim Charlesworth, winning a \$5.00 War Savings Certificate.

Another business change has taken place here. Mrs. Golding has sold her costumier's store to Mrs. Stratton who has already taken over. We understand Mrs. Golding is under the Doctor's care at Winnipeg and will not be returning for a while.

Results of Ladies' bazaar:—Elizabeth event—Mrs. Buckell, Chauvin, winners right; Mrs. Boomer, Wainwright, winners left. Margaret Rose event—Mrs. Jeff Miles, Edgerton, winner right; Mrs. Eunice Sawyer, Edgerton, winner left.

Mr. Raymond has joined the Active Forces.

Bob Leggett and family of Wainwright were visitors at the Geo. Sawyer home Sunday.

Mr. Raymond Garneau of Gilt Edge spent a few days last week visiting Roly Arthur.

The various branches of the Auburndale Ladies' Circle met last week. The Willowby Circle held their meeting at Mrs. Howard Green's on Wednesday evening. The Battleview division met at the home of Mrs. Geo. Symes on Thursday afternoon, while the Autumn Leaf section held their meeting at Mrs. Henry Eyben's home Thursday afternoon.

The teacher and pupils of Autumn Leaf school are holding a cootee party and dance on Friday March 19th in the school for the benefit of the Aid to Russia Fund.

GREENSHIELDS

Cold wintry blasts and icy roads did not deter a large crowd from enjoying the wedding dance in the hall on Wednesday evening as guests of the newlyweds, Mr. and Mrs. James Stranahan.

A shower and dance will be held in the Greenshields hall on Friday evening, March 12th, in honor of the popular couple.

Mrs. Archie Applin (nee Nellie Postans) is visiting with her aunt, Mrs. Morrison.

The Annual Meeting of the Trafalgar Mutual Telephone Co. was held on Saturday afternoon with a fair attendance. The auditor's report showed that the company enjoyed a fair year with 32 phones in operation.

The personnel of the 1943 Board is as follows:—A. B. Kett, President; W. S. White, Sec.-Treas.; Directors, D. Ratray Sr., G. Christopherson, R. Campbell, and T. Daniels. A vote of thanks was extended to the retiring director, Mr. R. B. Reid.

A meeting of Greenshields War Service League will be held on Wednesday evening, Mar. 10th, at the home of Mr. and Mrs. Rufus Carl.

Mr. J. Tibbitts is on the sick list this week with tonsillitis, or is it Bacthitis, Jess?

Mr. M. Haynes left for a short visit to Saskatchewan and Manitoba.

Mr. Roland Chartier, who has been working at the Park, left for his home at Nipawin, Sask., after a short visit with his brother Roch.

Mr. and Mrs. R. Bond and daughter were Sunday visitors at the Mericks.

Mr. Glen Valleau trucked in several loads of hogs to Wainwright on Friday.

What first looked like preparation for a barbecue just proved to be Mr. Geo. Reid thawing out the ground at the Beef ring ice pit.

Mrs. W. T. Morrison will entertain the Greenshields Ladies' Aid on Thursday afternoon, March 11th. Just a tip ladies, don't miss this!

Little Marwayne Stewart is sick—looks like measles, eh Dorothy?

Mr. Andrew Hutchinson was an Edmonton visitor this week.

Mr. Tom Holt has returned to his work at Prince Rupert after having spent several weeks visiting with his parents.

The Mimes Violet, Nancy and Lily Walker and Mr. Arthur Walker were trippers to the city last week.

Mr. Harry Walker is home for a few weeks' visit after which he will resume his work at the Park.

Mr. Leo LaPalme underwent an operation for tonsillitis on Wednesday morning at the local hospital. We wish him a speedy recovery.

Mr. Peter Rosenchuck returned to the Deltrich home on Sunday after visiting with friends and relatives at Lac LaBiche.

Bill Walker of the R.C.A.F. is home for a short visit here.

A meeting was held at the school on March 3rd by the U.F.C. The meeting gathered to hear a report on the convention in Edmonton a few months back and to elect a new secretary. Mr. C. Ford was the delegate who made the report on the convention. He spoke for a while, then election for a secretary took place because the former one (Mrs. Batchelor) resigned. This position was filled by Peter Gidora. Mr. Milton is now holding the position of vice president which was held by Mr. Batchelor. Later, coffee and sandwiches were served.

Floyd Myggland was a week end visitor with John LaPalme.

Don't forget the George Batchelor sale on Wednesday.

Several from this district enjoyed the Red Cross dance at Fabyan on Friday night. Pearl Walker brought home the prize for high score in cards.

Walter Strauss is now staying at the home of Mr. and Mrs. Harry Strauss for a few weeks.

The Jr. Red Cross card party and dance held on Feb. 26th was a great success.

AMONG THE OLD TIMERS

REMINDERS OF OTHER DAYS

TEN YEARS AGO

On Friday, March 7, a heavy snow storm and wind hit Wainwright, completely blocking the roads, and many of those brave people who went to the dance at Greenshields had to abandon their cars and find other means of conveyance home.

Mr. and Mrs. Richard Headon returned home this week after having spent the winter in England.

Mrs. Jas. Wilson, south of town, is enjoying a visit with her mother.

One of the most highly respected citizens of the Heath district died suddenly Sunday last after an illness of only two days duration, in the person of Mr. H. Sabourin.

Mr. and Mrs. Harry Bail, who have resided in this district for the past several years, sold their farm north of town and left to take up land in B.C.

FIFTEEN YEARS AGO

Kirk Snyder was the successful orator Friday when they held the local eliminations for the Dominion Oratorical contest. Kirk will proceed to Edmonton for the Provincial contests.

We extend our sympathies to Mrs. J. W. Daugherty upon the loss of her father Mr. H. T. Harding, who passed away at his home at Loughheed last Wednesday at the age of 70 years.

Mr. Chas. Callas left over the week end for the city where he is now stationed, firing the boiler at the Calder yards.

Mrs. W. Wiley arrived with her family from Regina last week to join her husband who has the coal dock contract.

CANADA NEEDS 40 MILLION POUNDS OF FATS FOR EXPLOSIVES

Here is a day-to-day War Job for You!

There is a serious shortage of Fats and Bones in Canada and the only way in which this shortage can be overcome is by the day-to-day saving of every scrap of dripping, every piece of scrap fat and every bone, cooked, uncooked or dry.

Fats make glycerine and glycerine makes high explosives—explosives to bomb the Axis powers—Adolph, Benito, Tojo, and their U-boats. Destroy their tanks. Bones produce fat. Also glue for war industry.

HERE IS WHAT YOU DO

Save every kind of waste dripping. All may be mixed together. Strain through an ordinary metal strainer into a clean wide-mouthed can. Do not use a glass or paper container. Keep in a refrigerator or a cool place until you have collected a pound or more. Save all pieces of left-over scrap fat from your waste (cooked or uncooked). Keep separate from your drippings. Keep scrap fat and bones in a cool place.

HERE IS HOW TO DISPOSE OF FATS AND BONES

The Meat Dealers of Canada as a patriotic effort, are co-operating with the Government in this all-important war work by contributing their collection facilities. Now you can dispose of your Fats and Bones in any one of the following ways:

1 YOUR MEAT DEALERS will pay you the established price per pound for your fat drippings and your scrap fat. You can keep this money for yourself or—

2 YOU CAN TURN THE PROCEEDS over to your local Voluntary Salvage Committee and/or to a registered local War Charity.

3 YOU CAN DONATE your Fats and Bones to your local Voluntary Salvage Committee in any place where they collect them, or—

4 YOU CAN CONTINUE to place out your fat and bones for collection by your Street Cleaning Department where such a system is in existence.

Every spoonful of dripping, every piece of fat and every bone, cooked, uncooked, or dry, must be saved. It's a day-to-day job. Your contribution may seem small and unimportant, but even one ounce of fat dripping per person per week will give us 30,000,000 pounds of fat each year for glycerine.

Hotels, Restaurants—Your support urgently needed!

THIS CAMPAIGN IS FOR THE DURATION OF THE WAR

DEPARTMENT OF NATIONAL WAR SERVICES

NATIONAL SALVAGE DIVISION

• Tilling daily in selfless devotion, Canadian women labor to make YOUR Red Cross dollars stretch farther. They sew and knit garments, pack food and supplies, fill precious boxes for our boys in enemy prisons. Since the war began, Red Cross "Blue Smock" workers have made millions of articles from approved patterns, packed millions of cases, for fighter and civilian comfort and relief. Other volunteer women, specially trained, drive cars, trucks, ambulances, help as nurses and nursing aides, office workers and dietitians. Hundreds of doctors, too, give their time freely to help relieve human suffering. The 837,000 members of the Junior Red Cross also, are doing work of untold value. These volunteers make YOUR Red Cross dollars go farther for material, food, medical supplies, preparation of blood serum, for our fighters and war victims on the world's war fronts. This must go on. As the war expands, intensifies, the need grows. Never was the need for YOUR dollars so great.

NEWS & VIEWS OF TOWN AND DISTRICT

BORN—To Mr. and Mrs. Edwin Pearson of Wainwright, at the Wainwright municipal hospital on March 7th, a girl.

Services in connection with the World's Day of Prayer will be held in the United church on Friday after noon next at 3 p.m. All are welcome.

Mr. and Mrs. W. Pollard have moved out to the farm again after spending the winter in town.

A mobile recruiting unit for both the men's and women's divisions of the R.C.A.F. will be in Wainwright on Tuesday of next week. See advt. on page two.

Miss Elsie Haywood journeyed to the city last week, returning with her sister Mrs. Don Fitzgerald, who is spending a holiday with her parents here.

Added to the list of recruits from this district for the Canadian Active Army this week are Samuel J. Wilkinson and Ralph E. Raymond, both of Edgerton, and also Harry H. Saint, of Wainwright.

Mr. L. Ecklund of Edgerton, was in town over the week end in connection with his new milk processing plant.

Just seven weeks old on Sunday last, was the bonny wee daughter which Mr. and Mrs. Cal Mackenzie have added to their home. Mrs. Mackenzie brought this little stranger back with her from her recent trip to Calgary and Edmonton.

Mr. Walter Nelles, one of the old-timers of our town of 35 years ago, was here renewing acquaintances last week and reminiscing with a number of merchants and others.

We learn that Mr. R. Wilkins is arranging to move shortly to Eckville, Alta., where he is to manage a butcher shop business.

Sympathies are extended to Mr. Watkin, the local school division inspector, who last week received the sad news of the death of his father at Didsbury, Alta. Mr. and Mrs. Watkin left for that place on Thursday, and expect to be absent for the next three weeks.

Wednesday night last saw a real big crowd at the wedding dance given at Greenshields for the newly-wed Mr. and Mrs. Stranahan.

We are sorry to learn that Mrs. Messier Sr., who is in failing health, has had to be removed to the local hospital for treatment, and wish her restoration to health.

Mr. and Mrs. Albert Rattray drove up to the city last week for a couple of days on business.

Mrs. Garth Mills was here last week end for a visit with her parents Mr. and Mrs. J. Robinson for a couple of days.

COMING EVENTS

Plan now to attend the big St. Patrick's Day dance at the Separate School Auditorium on Wednesday, March 17th.

This affair is under the auspices of the C.I.A. and a happy time is assured to all, with a good dance floor and good music. Admission is 50c, and all are invited.
